11 people were hanging on a rope under a helicopter, 10 men & one woman.

The rope was not strong enough to carry them all, so they decided that one had to leave, because otherwise they were all going to fall. They were unable to decide who would let go, until the woman gave a very touching speech. She said that she would voluntarily let go of the rope, because, as a woman, she was used to giving up everything for her husband and kids and for men in general, and was used to always making sacrifices with little in return. As soon as she finished her speech, all the men started clapping.
